Henry's Hangar

By Henry Hartman

Congratulations, Barnstormers! We survived Winter and Spring is here, finally. It's been a real "old-fashioned" winter, with plenty of snow and cold, but now we can get serious about better weather and flying!

Our next meeting on April 7th will be at the home and workshop of Ellie Sheen. Please see her invitation in this issue of The Observer. During our business meeting following the program, we will discuss some very important items that will be coming up.

If you have not yet signed up for our Field Trip to the Udvar-Hazy Center, please contact Bob Howe to find out if there are open seats on the bus. The trip is Saturday, April 12th, and there is no charge for Chapter 1041 members.

I'll be hoping to see you on April 7th and again on the 12th.

PIET HAS GROWN UP!

If you who haven't seen Jim's Pietenpol recently we think you will notice nice progress. Piet has been painted, it sits well on the landing gear, the tail surfaces are functioning, electrical and electronics are set to go and the engine is installed, there's gas in the tank and it's ready to fire up as soon as we have some decent weather.

Many of you have met Gary Hartle. He became Jim's EAA Technical Advisor (and friend) from the beginning of this project in 2003 and gradually "worked his way up" to become Co-Builder. Now he is Chief-Builder and he will be on hand to show you Piet's progress.

Gary and I will welcome you to Jim's Workshop/Hangar on April 7.
